Hard Times.

We hear it asserted quite often that the times are hard hereabouts, and that there is but little money in circulation. Why should this be so? We give here-with an accurate statement of the shipments of butter, cheese and mineral spring water made at St. Albans, from the first day of October to Dec. 3rd 1868; with an estimate of the amount of money received in return. Very extensive shipments have also been made of horses, cattle, swine, and other kinds of produce generally in relation to which we can give no figures.

Shipment of Butter.—There has been shipped 7,574 tubs of butter, gross weight, 452,340 lbs.—estimated net weight, after deducting 8 lbs per tub, is 513,932 lbs. From this butter, at an average price of 42c. per lb, which cannot be far out of the way, there must have been realized the handsome sum of \$215,851.44, which has induced a smile upon the faces of our farmers. We are pleased with this feature of the matter ourselves, and would suggest that our joy could only be increased by the receipt of a dollar or two occasionally, in payment for the Transcript.

Shipment of Cheese.—There has been shipped of cheese, 4,810 boxes, of which the gross weight was 394,420 lbs. To estimate the weight of the boxes at 10 lbs each, we have the net weight of 346,320 lbs, which, at 15c. per lb, would be \$51,948.

Mineral Spring Water.—The whole number of boxes shipped has been 5,803, containing 139,272 bottles. The price of this water delivered at the cars is \$7.50 per box, at which price \$43,522.50 has been realized for the same. Of this the Missisquoi Spring has shipped 4,111 boxes, the Vermont Spring 1,385 boxes, Sheldon Spring 138 boxes, 2 barrels, and 1 keg; Weldon Spring 166 boxes, all other springs 3 boxes.

TOTAL RECEIPTS.

From butter	\$215,851.44
" cheese	51,948.00
" spring water	43,522.50
	\$311,321.94

Shipment for October.—Butter, 3,620 tubs; cheese, 3,020 boxes; spring water, 1,480 boxes and 1 barrel.

Shipments for November.—Butter, 3,613 tubs; cheese, 1,790 boxes; spring water, 3,876 boxes, 1 brl., and 1 keg.

Shipments from Dec. 1st to Dec. 3rd.

We are aware that this statement will not agree with that published in the Messenger for the same time, so far as that paper has attempted to give the figures concerning butter. Of these other articles it recapitulates none. The error arises with the Messenger in assuming that butter is only shipped on Tuesdays, and computes the amount from its reports of that day when the fact is, large quantities of butter and cheese have been, and are being constantly shipped on other days of the week.

GRANT ON INDIAN AFFAIRS.—Gen. Grant, it is stated, has said in private conversation, that we can expect no permanent peace with the Indians until the Government transfers the Indian Bureau to the War Department.

THE BOSTON JOURNAL.—This Journal which circulates quite extensively hereabouts, is a live newspaper, and deserves of the large patronage that it receives. From its Prospectus for 1869, we should judge that for the coming year it will prove more valuable, if possible, than in any previous year. "Perley," at Washington, with his assistants, and the free use of the telegraph will keep its readers informed of important events transpiring there. "Carleton's" excellent and valuable letters will be continued, and its regular Correspondents in New England, New York, &c, cannot fail to make its columns unusually interesting. Terms:—Daily Journal, \$10; Semi-Weekly Journal, single copy, \$4.00; five copies to one address, \$15; ten copies to one address, \$30; Weekly Journal, one copy, by mail, \$2.00; five copies to one address, \$7.50; ten copies \$15, and one copy to the getter up of the club.

Helmhold's Drug Store.

The drug store of H. T. Helmhold, 594 Broadway, is, judging from the extended descriptions in the New York dailies, the finest and most attractive establishment of its kind in New York. It is one of those places, says one writer, which arrest the eyes of the passer-by, and compel him to stop and examine it, almost against his will. Not that externally it is marked by any striking architectural beauty, but that there is a certain nameless fascination about the combined result of an exquisite taste in the arrangement of the various articles exposed for sale in the windows, and a delightful harmony of color. This palace-like establishment is divided into

two compartments, wholesale and retail, the partition being as near as may be in the middle, with offices on each side of it, which are spanned by an arch, inscribed with the words "Wholesale Department." The Sun says:

This establishment was begun and finished in five days. To look at it, it seems incredible; and more especially so when it is examined in detail. The walls extending over half the retail hall are adorned all along the ceiling to the two first pillars with a series of 28 moulded arches, 14 on each side. These rest upon an elaborate moulding, supported by elegant pillars with ornamental capitals, overladen with gold, and the roof also is richly painted and fretted with gold. The shelves are divided into a number of ranges, each of which is backed by French mirrors. Then come the counters, eight in all, composed of solid marble throughout, the top slabs supported by richly carved brackets, starred with gold, and having two square compartments on the side faces, each one of which bears the inscription "H.T.H."

Indeed, throughout the establishment there is a harmony of form, color and disposition. A lavish hand has been at work in all the departments, and this marble palace is one more proof of the swift witchery whereof money is capable.

IRON in the BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude and "all gone-ness" pervades the system. Stimulants only afford temporary relief, and have the same effect as giving a tired horse the whip instead of oats. The true remedy is to supply the blood with the necessary quantity of iron. This can be done by using the

PERUVIAN SYRUP.

a protected solution of the protoxide of Iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.

To take medicine to cure diseases occasioned by a deficiency of IRON in the BLOOD, without restoring it to the system, is like trying to repair a building when the foundation is gone. A divine says: "I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

Physicians containing certificates of cures, and recommendations from some of our most eminent physicians, cerymen and others, will be sent free to any address.

BOSTON, Jan. 20, 1868.

Having given it a thorough trial we can confidently recommend Poland's White Pine Compound as a very valuable article for the cure of colds, coughs, and pulmonary complaints generally. In several cases we have known it to give prompt relief when all other remedies have been tried and failed. It is an article, which in a climate so promotive of sudden and severe colds as that of New England, ought to be in every family; and we are sure that those who once obtain it and give it a fair trial, will not thereafter be willing to be without it.

WOMAN.

FEMALES. OWING TO THE PECULIAR and important relations which they sustain, their peculiar organization, and the offices they perform, are subject to many sufferings. Freedom from these contribute in no small degree to their happiness and welfare, for none can be happy who are ill. Not only so, but none of these various female complaints can long be suffered to run on without involving the general health of the individual, and one long producing permanent sickness and premature decline. Nor is it pleasant to consult a physician for the relief of these various delicate affections, and only upon the most urgent necessity will a true woman so far sacrifice her greatest charm as to do this. The sex will then thank us for placing in their hands simple specifics which will be found efficacious in relieving and curing almost every one of those troublesome complaints peculiar to the sex.

HELMHOLD'S EXTRACT OF BUCHU.—Hundreds suffer in silence, and hundreds of others apply vainly to druggists and doctors, who either merely tantalize them with the hope of a cure or apply remedies which make them worse. I would not wish to add anything to what I have said in justice to the afflicted, but I am obliged to say that although it may be produced from excessive exhaustion of the powers of life, by laborious employment, unwholesome air and food, profuse menstruation, the use of tea and coffee, and frequent childbearing, it is far oftener caused by direct irritation, applied to the mucous membrane of the vagina itself.

When reviewing the causes of these distressing complaints, it is most painful to contemplate the attendant evils consequent upon them. It is but simple justice to the subject to enumerate a few of the many additional causes which so largely affect the life, health, and happiness of woman in all classes of society, and which, consequently, affect more or less directly, the welfare of the entire human family. The mania that exists for precocious education and marriage, causes the years that nature designed for corporeal development to be wasted and perverted in the restraints of dress, the early confinement of school, and especially in the unhealthy excitement of the ball-room. Thus, with the body half-clothed, and the mind unduly excited by pleasure, perverting in midnight revel the hours destined by nature for sleep and rest, the work of destruction is half accomplished.

In consequence of this early strain upon her system, unnecessary effort is required by the delicate votary to retain her position in school at a later day, thus aggravating the evil. When one excitement is over, another in prospective keeps the mind morbidly sensitive to impression, while the now constant restraint of fashionable dress, absolutely forbidding the exercise indispensable to the attainment of health and vigor, the complete prostration produced by excessive dancing, must, of necessity, produce their legitimate effect. At last, at last, the unfortunate one, hitherto so utterly regardless of the plain dictates and remonstrances of her delicate nature, becomes an unwilling subject of medical treatment. This is but a trifling picture of the experience of thousands of our young women.

Long before the ability to exercise the functions of the generative organs, they require an education of their peculiar nervous system, composed of what is called the tissue, which is, in common with the female breast and lips, eventually under the control of mental emotions and associations at an early period of life; and, as we shall subsequently see, these emotions, when excessive lead, long before puberty, to habits which sap the very life of their victims, and nature has self-completed their development.

For Female Weakness and Debility, Whites or Leucorrhoea, Too Profuse Menstruation, Exhaustion, Too Long Continued Periods, for Propagation and Bearing Down, or Premature Delivery, we offer the most perfect specific known: **HELMHOLD'S COMPOUND EXTRACT OF BUCHU.** Directions for use, diet, and advice, accompany.

Females in every period of life, from infancy to extreme old age, will find it a remedy to aid nature in the discharge of its functions. It is the glory of manhood and womanhood. **HELMHOLD'S EXTRACT OF BUCHU** is more strengthening than any of the preparations of Bark or Iron, infinitely safer, and more pleasant. **HELMHOLD'S EXTRACT OF BUCHU**, having been analyzed by the United States, is now offered to the afflicted humanity as a certain cure for the following diseases and symptoms, from whatever cause originating: General Debility, Mental and Physical Depression, Imbecility, Determination of Blood to the Head, Confused Ideas, Hysteria, General Irritability, Restlessness and Sleeplessness, Night, Absence of Muscular Efficiency, Loss of Appetite, Dyspepsia, Emaciation, Low Spirits, Disorganization or Paralysis of the Organs of Generation, Zapping Ideas, Nervousness, and in fact, all the concomitants of a nervous and debilitated state of the system. To insure the genuine, cut this out. Ask for **HELMHOLD'S**. Take no other. Sold by Druggists and Dealers everywhere. Price \$1.25 per bottle, or six bottles for \$6.50.
